BOARD'S DISCUSSION ON CORRESPONDENCE: There were no discussions made on the correspondence.

VISITING OFFICIALS: There were no visiting elected officials present.

REPORTS OF BOARDS AND DEPARTMENT HEADS:

POLICE CHIEF JOHN RADER - Thank you, Mr. Supervisor. My report is a little more lengthy than normal. Tomorrow, the second session of the Junior Police Academy graduates at 1:00 p.m. at Mountain Lake Park. We have 25 cadets attending this session, and the progress reports that I'm receiving shows that they've been an outstanding group. Over the last two weeks, as in every session since 2022 when we began this program, our school resource officers have scheduled fire safety with the Warwick Fire Department, life safety and CPR class with Kelly Pikul, who's one of our dispatchers and a long-time member of the Pine Island Ambulance Corp. A tour of the Orange County Emergency Services Center that includes a class on bicycle safety, and also a free new bicycle helmet for each of them. This year, for the first time, the Warwick Prevention Coalition gave a lecture to the cadets on the dangers of cannabis. They had tours of the town services, such as the court, the police department, Dial-A-Bus, DPW, and the Humane Society. They learned self-defense at Chosun. They learned wellness at Vastu Yoga. They had a canine demonstration from officer Kerstner and K-9 Fritz. Tactical lessons from our SWAT trained officers, crime scene investigations from our detectives, courtroom procedures from the District Attorney's Office, and a full day of team-building and confidence training at Treescape Ropes Course in Vernon. This is in addition to the daily physical training, learning how to march in formation, and public speaking exercises that were held in the classroom. This would all not be possible without the support that we get from Supervisor Dwyer and the town board. The partnership that we have with the Warwick School District and the support from Superintendent Dr. David Leach. All of the department heads that help out during these daily events, including the graduation at the park, and the entire community that gives their time and services to the cadets. And certainly, last but not least, the dedication of our school resource officers.

We held our fifth annual National Night Out event on August 4th in Memorial Park. This event, by far, had the largest turnout not only from the public, but we also had the largest participation from all the local services and veterans in the town. We truly appreciate the partnership we have with Warwick Prevention Coalition, and we thank everyone who had a part in making this night successful for us.

Today, we welcomed Officer Tyler Morella back to work. Officer Morella, who was a Master Sergeant with the Air National Guard Base in Newburgh, began what was supposed to be a short deployment last October in Kuwait. He was ultimately extended several times until he was cleared to return home to his family in late June. We truly appreciate the service he gives not only to the town, but to our nation, and we're grateful that he returns home safe and sound.

I attended the Ice Cream Snow Show that was held by the Alamo-Sun River Health Center Kids' Summer Program at the Pine Island School two weeks ago. The reason I bring this up is there was many heartwarming stories that were told to us by the students. What resonated the most was their appreciation to Supervisor Dwyer and to Sam Walter for the water safety classes that were held for them at Mountain Lake Park. Although it would be impossible to prove, the town's support in this program no doubt saved some of them from

a tragedy involving a swimming incident, and I just wanted to extend that appreciation that they said to me that day to both of you for that program. It really left an impression on all of them.

Last week, we said goodbye to our chaplain, Joe Amaturio. Joe was the first chaplain for the Warwick Police Department beginning in 2024. He recently sold his house and moved to Delaware. During his time, Joe provided comfort to our staff and to the community in the school. Tonight, we're seeking board approval to appoint Pastor John Lashuay from Pine Island as his replacement. Pastor Lashuay is a strong spiritual part of our community and the local emergency services, and he'll be a great addition to our program.

Finally, we're moving forward very quickly with the renovation project, but today we had to temporarily pause our drug take-back program while the lobby is being worked on. We anticipate having it back in service within the next two weeks, and we suggest that anyone with prescription medications that need to be discarded to take them to CVS located on Main Street in Warwick. That's all I have at this time, unless there's any questions from the board.

SUPERVISOR DWYER - I just want to comment that JPA, I was lucky enough to go to the graduation a couple of weeks ago, and the order that these officers are able to get these kids in in a matter of two weeks is just unparalleled and really amazing to see. And you mentioned that it wouldn't be possible without myself or the town board. We play a small role, and that's providing some money. It really would not be possible without you pushing for this and organizing it, and the officers that you have that are willing to give up their summers to continue working with children. I don't know how they do it, but they're our school resource officers, and they are so perfect for the job. The program is incredible. It works really well. You can see the difference in the development that it's making these kids, and you guys are all doing a great job, so we appreciate your dedication in supporting our youth within the town. The National Night Out, another great one. You guys, the entire police department and you put so much time into this and really making it such a great event from getting grant money to pay for it and all the organization and walking around the National Night Out and seeing pretty much every single organization across the entire Town of Warwick out for one event is something I have never seen, and the resources that are available to residents to come out to that night, I really hope that people appreciate as much as I do what you guys are bringing to the public on that night. It really is very special, not only to bring the community out to meet and mingle and enjoy time with the police department, but having all of the organizations on hand to provide resources to the community is such a great thing for our town, and we really appreciate it, so great job to you and the entire department and everyone who was involved in making National Night Out a very special night for all of us. So great job, thank you for the lengthy report and for all the work you guys did this month.

POLICE CHIEF JOHN RADER - I appreciate that.

DPW COMMISSIONER BENJAMIN ASTORINO – We've been quite busy, we're on Bowen Road, we repaired a culvert up there that will have to be replaced next year. When we went up there to do the replacement, the pipes that were in there were still functional to a point, and with budget constraints the way they are, it's going to be a very expensive pipe

to purchase. I'm meeting with one of our vendors up there to get the price for next year, and we'll have that done next year. We also installed culvert pipe, driveway pipes up on Continental Road, where we black-topped them today, we black-topped a good section of some broken asphalt up there today. We installed a culvert pipe on Wickham Drive in Wickham Village, we installed another fairly large culvert pipe on Round Hill Road. We fixed some catch basins on Crystal Farm Road and Southwycke Lane. Tree work, we did have some storms blow through here this past week, and we cleaned up some tree damage. Mowing town-wide, we're still on the roadsides. Our one mower is down, it'll be up next week. Got a lot of technology, a sensor, a knock sensor that is just ridiculous.

SUPERVISOR DWYER - Brand new equipment.

DPW COMMISSIONER BENJAMIN ASTORINO - Brand new equipment, and this is what we deal with in this day and age, but that part should be here early next week and mower back on the road. Emergency repairs, our mechanics are fixing our equipment, getting ready for the winter, so it's August. Yeah, every now and then, everybody shakes their head, yeah, absolutely, but when the snow flies, our equipment is ready to roll. So, new chains, body work, the trucks are not new, but they will be ready to go for the winter. Vehicle maintenance, we're always on that. Road signs, Anthony's out and about taking care of that. We are hauling material in, progressing on the shooting range. We're doing what we can, so it's slow, but it's coming along, and as Supervisor Dwyer pointed out. Past couple of days have been pretty busy in the evenings with a couple of water main breaks in the Village of Greenwood Lake. I just want to commend the crew. I mean they are dedicated to do their job and when you get two in a row, two different evenings, it shows who you have. So, any questions?

SUPERVISOR DWYER - Nope, busy month. We appreciate everybody's hard work. We know it was a busy couple months during the summer. We know people are taking vacations, and people are stepping up to get the job done.

DPW COMMISSIONER BENJAMIN ASTORINO - Also, I just want to point out that the senior barbeque, which I'm sure we mentioned, this evening, we are prepping, and we're ready to go for Tuesday.

WATER & SEWER, DEPUTY COMMISSIONER MATT MCPHERSON – I have a short report. Our guys are continuing to do summer maintenance at all the facilities, which include, you know, mowing grass, painting, as well as scheduled maintenance and repairs.

We were having some issues on the Greenwood Lake summer water with very high usage on the system. We spent a few days looking for leaks on the summer water system, and we were luckily able to find two that have since brought the usage for the entire system down quite a bit, so that was a good thing for that system.

We spent a lot of time at the health department over the past few weeks doing inspections at all of our water facilities. We have some capital projects like the Wickham Well, but other than that, for the most part, the inspections came out well for our Wickham Water Facilities.

The Pine Island Well continues to work as the main supplier for that district. We've had no disruptions or calls for discolored water since that well has gone online, so that system seems to be doing a lot better with that. Other than that, we submitted all regulatory sampling and reporting for the month of July, and the wastewater treatment plant continues to run within limits with minor repairs here and there. It's been good.

SUPERVISOR DWYER - Hopefully that violation we got for Pine Island is the last one we get.

WATER & SEWER, DEPUTY COMMISSIONER MATT MCPHERSON – We actually took those samples, again, off the new well. I haven't received the results, but fingers crossed.

SUPERVISOR DWYER - But the violation is from before we put the well on?

WATER & SEWER, DEPUTY COMMISSIONER MATT MCPHERSON – Yeah.

SUPERVISOR DWYER - All right, great. Any questions for Matt? Thanks, Matt.

RECREATION DIRECTOR, SAM WALTER – Thank you, Supervisor. So, the pools have been very busy. It's been hot. A few days, I had to bring in some extra guards just to give

the current guards some more relief. But things are going well up there at the pools. We did finish swim lessons. We put out a survey to the parents, and the survey results were wonderful. Lots of parents thanked the town board for offering such a great program. So, we're really pleased that it went well this summer, and the kids really, you teach a child to swim, they teach friends, they teach up their children. So, it's really just amazing that we're able to offer such great quality swim lessons to our residents.

Also, the park's been busy with pickleball and lots of fishing and hiking. We just finished up the Ghost Light Theater Camp, so those children left on Sunday. The staff stayed, cleaned everything. They did a great job. Really grateful for the relationship that we had with the Ghost Light Theater Camp and the teens and preteens that were at the camp all summer. It was nice to see the whole park busy, very busy.

SUPERVISOR DWYER - Are you considering some sort of a survey with them, maybe to gain some feedback?

RECREATION DIRECTOR, SAM WALTER – Sure, absolutely. We did, you know, the director and I walked the grounds, looked at everything again, and talked about what we could do, what was great about this summer, what we could do better next summer. But yes, we can definitely give them a survey so multiple staff members can reply. Yep, we can do that.

So now we're getting ready for wedding season at the park. Almost every weekend from here on out has a festival wedding weekend booked. So, it's going to be very busy for us at the park, for sure, with the weddings.

We also look forward to having the Warwick Valley Central School District Odyssey of the Minds Club back in the arts building, Team Taca back in the arts building, and the Hudson Highlands Nature Center Preschoolers back in the front building. So that'll be fun and busy for us in the fall. And that's it from our report.

SUPERVISOR DWYER - Okay, we have a resolution tonight to hopefully get those roofs moving forward, because I know that's important, going into wedding season.

RECREATION DIRECTOR, SAM WALTER - Yeah, the wedding season definitely.

TOWN BOARD REPORTS:

COUNCILMAN DEANGELO - Okay, good evening. For the Town of Warwick Animal Control Officers, they've been very busy intaking and rescuing animals. The Animal Control received 10 police calls throughout the month of July for stray dogs resulting in the impoundment of five dogs. All five of those loose dogs were redeemed by their families. The shelter also took in 18 kittens from the TNR efforts throughout the community. A small kitten was discovered soaking wet without a temperature in a roasted chicken container inside a bucket at a local business. Fortunately, she was saved just in time and is doing well. The shelter took in three unwanted sheep, all of whom were soon replaced with a sanctuary to live out their lives. The Animal Control officers responded to a kitten in a drain pipe at Shoprite with a foot of water at the bottom. After much coaxing and roasted chicken, she was safely pulled from the pipe and is recovering from her ordeal.

Eight little ducklings were orphaned and left standing in a huddle on Grand Street. Animal Control managed to scoop them up all and bring them to the shelter. They have since been transferred to a wildlife rehabilitator. Our thanks to the police department for alerting us to these situations and to Manno Farm for helping our sheep and rabbits with an ongoing supply of hay.

Also, I want you to know, please contact Warwick Police for any after-hour animal emergencies in order to reach Animal Control. Donations on the shelter website and from our wish list at wvhumane.org are greatly appreciated. That's all I have for the Humane Society.

For the Friendly Visitor Program, for the month of July, number of neighbors assisted was 34. Total number of volunteers assisting those neighbors was 30. And total number of services provided by those 30 volunteers was 339, which I find really amazing, but thank you that's all I have.

COUNCILMAN KOWAL - Hi. Recently, our town historian has been contacted by a historical group that's associated with the Boston Tea Party in Boston, Massachusetts, verifying that John Cowdrey was indeed a participant in the Boston Tea Party. Now, John Cowdrey was a Revolutionary War soldier who is currently interred in the Warwick Cemetery. So, they're going come down. We haven't ironed out the date yet, but they're going come down sometime in September and officially mark the grave, verifying that he was a participant in the Tea Party. The historian knew this for quite a while, but it's just nice to have it verified and certified that he actually was part of that in addition to being a Revolutionary War hero. So, we're looking forward to that as we have more details on the event. We'll make that known. But for right now, it's just they're coming down sometime in September to mark the grave for us and make it official. So that's pretty cool. That's all I have.

SUPERVISOR DWYER - Very exciting.

COUNCILMAN MATTINGLY - Thank you, Supervisor. In the Village of Warwick and relating to the Warwick Valley Chamber of Commerce, there will be an Espresso Mixer at Marie's Floral Designs, 10 Main Street, Warwick, New York, on Wednesday, August 19th from 8:00 a.m. to 10:00 a.m. Free for members, \$10 for future members.

Ladies' Night Out will be held in the Village of Warwick on Thursday, August the 20th from 3:00 p.m. to 8:00 p.m. Enjoy specials throughout the village and the crowning of Warwick's Queen at 6:00 p.m. on Railroad Green.

A Taste of Warwick has been announced since Tuesday, September 15th from 6:00 p.m. to 9:00 p.m. at Warwick Valley Distillery. Friends, neighbors, visitors, and local culinary artists, artisans will come together at Warwick Valley Winery for an unforgettable evening filled with exceptional food, craft, beverages, and the unmistakable energy of Warwick at its best. Tickets are available at warwickcc.org.

For the Florida Chamber, Chrome Salon will have a blood drive on Monday, August 17th from noon to 6:00 p.m. Chrome Salon is located at 42 Main Street, Suite 2 in Florida. A reminder again, Florida Chamber presents an evening with Jimmy Sturr, Maple Avenue in

Florida on Thursday, August 20th from 5:00 p.m. to 8:00 p.m. Spend the evening with Jimmy around the pool. It's an enjoyable evening where questions are asked of Jimmy and you may learn some things that you didn't know about him, his life, and his career. Tickets are \$35. Call 845-258-9310 for tickets and more information.

Also in Florida, the AI Breakfast Mixer will be at the Florida Public Library on September 29th. I'll check that. I'm not sure why I put September as an event. I'll check that. At 9 a.m., catered by Fresh Fusion, the fee is \$15.

For more information about the Greenwood Lake Chamber, for membership information and other information, please visit gwnychamber.com.

And finally, the Pine Island Chamber will have its food truck festival at St. Joseph and St. Stanislaus at the Polish Legion of American Veterans in Pine Island on Wednesday, September 26th from noon until 6:00 p.m. That is all I have for this evening.

COUNCILMAN SHUBACK - Also at the Polish American Legion, Jimmy Sturr will be playing, I believe, September 6th. And I believe the following weekend, they are doing a chicken barbecue for a fundraiser for the PLAV.

I'll once again remind people that the farmers are really busy out there, so be mindful that equipment moves very slow. So, most of those trackers only go 10, 15 miles an hour. So, just be careful when you see them.

3. I just wanted to remind hunters that the licenses are on sale now, that they have, DEC has declared 3M as unlimited doe tags. So, you'll get two right away, but if you get one and you register it right away with the DEC, they will automatically issue you another one. So, it's unlimited.

SUPERVISOR DWYER - I think you can apply up to four doe tags out of the gate.

TOWN CLERK ASTORINO - Yes, because you can get in different areas.

SUPERVISOR DWYER – So, instead of ending the season with 20 unused deer tags this year, I can end the season with 30 unused deer tags. Only a hunter will get that.

All right, my report is pretty brief tonight, but just going over a couple things. We announced previously that we were awarded a \$15,000 New York State grant for a cybersecurity threat analysis and project plan. We are accepting a bid tonight from the company Delany Computer Solutions to move forward on doing this cybersecurity threat analysis. This will cover both the town as well as the police department and any computers that are used by the Town of Warwick in any of our networks. Obviously, we're in the day and age where AI is making it so much easier for people to corrupt systems and they're holding governments ransom for their data. So, we think that it's a very important time to get this underway.

The Affordable Lottery Program for the Town of Warwick, we've been mentioning that, working very hard to try to put forward some sort of outline on this. However, this being the first time this is ever going to happen, it is a very fluid situation where we're continuing to work on this law and the implementation. What I can say is that the first affordable lot will likely be available in the spring of 2027. So, we still have plenty of time to continue working on it. The town board and I are continuing to discuss this. We may implement some proposed changes to the law just to make it make a little more sense for the public and the process. Again, this is a law that's been in place for more than 20 years, but we have never actually implemented it. We have never offered an affordable lot to the public until now. And we anticipate that there will be up to five affordable lots in the near future. So, over the next two to three years, we expect five affordable lots to be given out through this process. And again, we're working hard to try to nail down the exact specifics because the law as it was written was very ambiguous and we prefer more specificity in these types of situations. So, we're continuing to develop this and we are going to hold a public hearing at our next meeting to discuss possible changes and clarifications to our current town code relating to the affordable lot. But before that, we intend to release some information on how the entire process will go. But at least by the September 10th meeting, we'll have a full layout of exactly how the affordable lot subdivision program will go.

Battery storage law, we've had a public hearing and meeting after meeting after meeting on this battery storage law. We have been talking about this for well over a year and at 3:54 p.m. today, on the final day we intended to vote for this law, Orange and Rockland decided to send us their feedback. And it's not really a change that we would consider, but it is something that we feel is important to verify. So, I think the town board will likely table the resolution to adopt the battery storage law tonight, just to look at and evaluate the legitimacy of Orange and Rockland's claim in their email that they sent us six minutes before town hall closed today.

Senior barbecue is going to be August 18th with a rain date of August 19th. This is located at Union Corners Park and that's the disc golf side, not the baseball field side or the soccer field side, it's the disc golf side. That is going to be held from 11:00 a.m. to 3:00 p.m. It is a free senior barbecue for only Town of Warwick residents or residents who are in the Warwick Central School District. The reason we say that is because we also consider the residents in the Sugar Loaf area who pay Warwick school taxes to be a part of our

community. So, anyone else who's a Warwick town resident or those who are in the Sugar Loaf or Warwick School District are eligible to go to the senior barbecue.

Very exciting on the PDR front, we are scheduled to close on the Burt Farm 60-acre property on August 19th. That is the farm as you're coming into the Village of Warwick from let's say Mount Peter or that area. It's the large historic farm on the right side as you're pulling into the village. That is 60 acres that will be going into the PDR program on August 19th. And in addition, I'm very happy to announce that OSI did close on the Warwick Conference Center's 313 acres. This is a partnership between the Town of Warwick and the Open Space Institute. So as of this moment, 313 acres of the Warwick Conference Center ground will forever be preserved. We are still waiting to hear back on the grant results of the state grant that we applied for to find out if that will help support the cost of this acquisition. But as of right now, OSI laid out the money, 3.4 million to purchase the 313 acres in anticipation of the town taking over that property. So, we're very thankful and grateful to have the partnership of the Open Space Institute to really run this through and preserve another 300 plus acres within the Town of Warwick.

And one final comment, I don't think I heard it in your report, Tom, I might have. The Greenwood Lake Fire Department Carnival is ongoing. It started last night and it is continuing through August 16th, located at Winstanley Park in the Village of Greenwood Lake. Both of my kids are there right now. And I hope everybody can go stop by and support the Greenwood Lake Fire Department. At this time, that concludes my report.
