CERTIFICATION OF REVIEW OF DEMOLITION REQUIREMENTS

In accordance with NYS Uniform Fire Prevention and Building Code:

Safety

Safe and sanitary conditions shall be provided where demolition and wrecking operations are being carried on. Work shall be done in such manner that hazard from fire, possibility of injury, danger to health and conditions which may constitute a public nuisance will be minimized in conformity with general standards.

Accessibility

Access to all utilities and public facilities, including among others, fire hydrants, fire alarm boxes, police call boxes, street lights and manholes shall be kept unobstructed during demolition.

Utilities

Gas, electric, sewer, heat, power, water and other service connections shall be disconnected, removed, or sealed in conformity with the applicable regulations of the public utility or the municipal agency having jurisdiction.

Applicable Regulations of the NYS and Federal Government

NYS Dept. of Labor Industrial Code Rule 56-12 NYCRR Park 56 11/9/94 Asbestos

56-1.9 Building demolition survey. (a) Survey required. Prior to advertising for bids or contracting for or commencing work on any demolition work on a building, except an agricultural building or a building the construction of which was begun on or after 1/1/74, an owner and his/her agents, except the owner of one and two family dwellings who contracts for but does not direct or control the work, shall conduct or cause to be conducted a survey to determine whether or not the building or portion of thereof to be demolished contains asbestos or asbestos material as defined in Section 56-1.4 of this Subpart. All surveys shall be conducted in conformance with the requirements of subdivision (b) of this section. (b) Building Survey Requirements. The survey shall include the inspection and identification of all asbestos, or asbestos material throughout the building or portion thereof to be demolished.

The required inspection shall be performed by a certified inspector, and, at a minimum shall include identified or asbestos or asbestos material by the following methods: 1. The review of building plans and records, if available, for reference to asbestos. 2. The sampling of suspect material and subsequent analysis by a laboratory that meets the requirements of Section 56-17.4 of the Part. 3. The mapping out of all asbestos or asbestos material. NYS Dept. of Labor Industrial Code Rule 56-SubPart 56-2/Licensing and Certification (a) License required. No contractor shall engage in an asbestos project unless such contractor has a valid asbestos handling license issued by the Commissioner.

DISCLAIMER:

Contractor hereby certifies that they have reviewed all of the information above and all materials will be disposed of in an appropriate manner in accordance with all regulations and disposal requirements.
