BOARD'S DISCUSSION ON CORRESPONDENCE: There were no discussions made on the correspondence.

VISITING OFFICIALS: There were no visiting elected officials present.

REPORTS OF BOARDS AND DEPARTMENT HEADS:
POLICE LIEUTENANT ALTON MORLEY – Good evening, Supervisor and board members. A reminder that Applefest is Sunday, October 4th. There'll be significant vehicle and pedestrian traffic all day.

We held a car seat safety check event in the Village of Florida on Monday, September 21st. During this event we had 18 seats were checked, 15 corrected, 6 seats given out as part of a grant we receive each year for families that cannot afford to purchase an up-to-date car seat. If anyone needs assistance with a car seat installation or would like their seat checked, please call the police station 845-986-5000 to set up an appointment with one of our car seat technicians. You don't have to wait for us to host an event.

The annual homecoming parade is this Saturday beginning at 12. We will have officers on hand to assist with traffic and detours during this event.

We anticipate the drug take-back collection box to be reinstalled in our lobby next week. Until then we remind our residents to utilize CVS on Main Street in Warwick for any discarded prescription medication. That's all I have.

DPW FOREMAN WALTER SCHULTZ – Good evening, folks. We don't have too much going on. We did a couple culvert pipes. We did one on Deer Pond. It was a 3 foot by 40-foot driveway culvert. That place has got really huge pipes for whatever reason. Did another driveway pipe on Blooms Corners Road. It was a 12-footer by 40 foot.

Catch basins. We have a lot of catch basins over here on Old Oak that fell apart. It's getting to be old over there. So, we're doing a bunch of them. Some need patching. Some need to be whole re-poured.

Drainage. We have to go down into Wickham Knolls on Shepherd Drive. There's a waterway that goes from the road into the swamp. We have to clean that up. Tree work. We had a bunch of dead trees on Mountainside, so we borrowed the village's bucket truck and took them down.

Mowing. The guys have been just out mowing every day on the sides of the road. They're working on their second round right now. Potholes. They're out wherever I get a call and they're just filling whatever they can find. Vehicle maintenance. They're getting ready for winter and inspections. Barney's going through all the trucks and we're going to get them all New York State inspected. Damian's working on Dial- A-Buses, PD cars, whatever he's got.

Emergency repairs. If we get a call, I send the guys out and we're doing that right now. Anthony's been keeping up with the signs and doing that kind of stuff. Material. We've been building the shooting range for the police department. So, we've been hauling down there and they've been leveling it out and we're almost done with that.

Water repair. The water department did a curb box. Town Parks. They're mowing and doing the normal garbage and bathrooms. that's it.

COUNCILMAN KOWAL - Recently we got a request from the Pine Island Chamber of Commerce about putting a street light on one of the utility poles that's near the holiday tree by the gazebo. With a drop-down service with some extra plugs. Do you have any contacts with O&R? We can check into that and see if we can...

DPW FOREMAN WALTER SCHULTZ – Yeah, I'll do... I don't have the contacts that Ben does for that right now.

SUPERVISOR DWYER - Brenda may.

DPW FOREMAN WALTER SCHULTZ - Okay. I'll work on that.

RECREATION DIRECTOR, SAM WALTER – Thank you, Supervisor. The park has been busy with the preschool starting back up, the club starting back up in the arts building, and then of course lots of weekend weddings with people staying in the cabins at the park. We also had a group from Sustainable Warwick come out and I led a hike around the lake. It was a bear-themed hike. We didn't see any bears, but we did see evidence of bears. So that was a lot of fun and we got to share a lot of bear stories, all positive ones.

The park's been busy with pickleball and also a lot of hiking as well. We have two Boy Scouts from Troop 45 that are starting their Eagle Scout projects at the park. One is going to build a new lean-to up at the top of the park where the big climbing tower used to be. The other Scout is going to build a small pedestrian bridge that crosses over a little creek that goes into the lake. So, we're excited for those two projects and definitely want to thank the Scouts for their commitment to the community, for doing meaningful projects for us at the parks. That's it for my report.

SUPERVISOR DWYER - Any questions for Sam? No. Thank you, Sam.

COUNCILMAN KOWAL - How is the goose population this year compared to others?

RECREATION DIRECTOR, SAM WALTER – The same. We still have geese. We have been trying.

COUNCILMAN KOWAL - The beacon was fixed. I don't know if it had any effect on it.

RECREATION DIRECTOR, SAM WALTER - Yeah, it did at first, it looked like, but then I think they maybe got desensitized to it. We still have a couple of dogs coming out doing the goose patrol. We tried a few other things, but the geese are pretty, you know, they just keep coming back.

SUPERVISOR DWYER - Great. Thank you, Sam.

TOWN BOARD REPORTS:
COUNCILMAN DEANGELO - Okay, good evening for the Warwick Humane Society. They will be at Applefest on Sunday, October 4th. Please, look for their booth it will be on South Street at the railroad tracks. There's been a spike in dog bite incidents involving delivery drivers and postal workers. Be sure your dog/dogs is or are current on the rabies vaccination and will be able to provide immediate proof to prevent the victim having to undergo post-exposure rabies shots. Reminder, all dogs must be licensed in the Town of Warwick requiring yearly renewal. Contact the Town Clerk's office or Warwick Humane for information. Adoption applications are available at wvhumane.org under the forms and downloads tab.

The shelter has dogs, cats, kittens, parakeets, rabbits, white rats, and a guinea pig available for adoption. A dozen adoptable adult shelter cats are now residing at the Tails Up Cat Cafe and Creative Lounge on Windermere Avenue in Greenwood Lake. You should be sure to visit them. Spray neuter certificates for cats are available for purchase at the Warwick Humane for the Animal Rights Alliance low-cost clinics. The cost is only $25 per certificate

per cat, which includes spray or neuter and rabies vaccination. Call the shelter for more information.

They have a wish list. Friskies or any pâté-style canned cat and kitten food, Natural Balance or Merrick canned dog food, Hills Science Diet dried dog and cat food, 13-gallon garbage bags, large and small paper plates, paper towels, and laundry detergents. That's all for the Humane Society.

The Friendly Visitor Program is having a meeting with the Jewish Family Service people. The meeting will be on October 15, 2026 at 10:00 a.m. What they're looking for is they need volunteers to help with this program. If you're interested, who should they call?

SUPERVISOR DWYER - They can reach out to Town Hall 986-1124 extension 4 or email the supervisor, supervisor@townofwarwickny.gov.

COUNCILMAN DEANGELO - That's all I have. Thank you.

COUNCILMAN KOWAL – No report was given.

COUNCILMAN MATTINGLY – Absent.

COUNCILMAN SHUBACK – This Saturday at the PLAV in Pine Island we are having a food truck event and a small touch a truck event with tractors and equipment there for kids to play with if it's not raining. If it's not raining, come out and enjoy yourself with the kids. That's all I have.

SUPERVISOR DWYER - So an event at the PLAV just because your mic wasn't on this Saturday. Saturday, great.

COUNCILMAN SHUBACK - There's a food truck event and a small touch truck with tractors and equipment there.

SUPERVISOR DWYER - What time?

COUNCILMAN SHUBACK - I believe it starts at 9 o'clock and goes for most of the day.

SUPERVISOR DWYER – Ok, cool.

TOWN CLERK ASTORINO - I have nothing to report except come in and get your hunting licenses. You can buy them online, but if you have difficulty, just come in and we'll fix it. You have to get your doe tags in our office. You can't buy them online. That's all I have.

SUPERVISOR DWYER - All right, just a couple things from my report. At the last Town Board meeting I had mentioned some issues with the South Street Bridge located in the Village of Warwick. That is a Town of Warwick-owned bridge. I won't go into the history of why we own bridges in the villages, but we do. Not the greatest thing in the world when they fail. But this bridge has had a recent inspection where the DOT has flagged some concerns. It has officially been flagged. That does not mean that it has been closed. You've seen some increased signage around the area indicating the weight limit of the bridge at three tons. You might have also noticed that we put barricades on one side of the bridge to shift traffic away

from what we have identified to be the problem area within the bridge. We have notified all the local businesses that they may continue to drive over the bridge but we are strictly enforcing the weight limit over the bridge. This is important because we understand with Applefest coming up a lot of people may be traveling over that bridge and we've instructed all of the vendors as well as the Chamber of Commerce to make sure that trucks that may be loading or unloading are not going over South Street Bridge. We don't believe that it'll collapse because of one of these trucks but we know that the increased weight going over this truck will just more rapidly deteriorate the quality of the bridge.

We are developing plans and working very closely with the Village of Warwick on the future of this bridge and we will most likely have to replace this bridge within the next several years. We do not have a timeline on that but again just want to reiterate to the public that the bridge is safe to travel over and walk over and if we identify any other more urgent concerns, we will share that very quickly with the public.

The Town Board discussed during our workshop tonight a potential road for East Shore, a potential project located on East Shore Road. East Shore Road is located in the Greenwood Lake section of Warwick right along Greenwood Lake. It was originally designed as a railroad bed and then it was converted into a roadway, a very heavily trafficked roadway. Anyone who's ever driven over East Shore Road knows that there is nothing separating you from the road and the lake and in fact we have had fatalities for vehicles that have entered the lake leaving the roadway. So, this has become a critical project for us. It's been a big part of the Safe Streets initiative, the town-wide initiative that we have and the Town Board has identified this as a priority project to stabilize the bank, create a guide rail system and also potentially have a pedestrian walkway that creates a natural guide rail along the road. The road was never designed to be a road that is traveled by as many vehicles and over time it has been eroded and it is becoming a very big problem for us so we will look to address it. We're going to do a feasibility study to identify the best future for this road and if we can possibly create a pedestrian walkway that also creates a natural guide rail that separates drivers from entering into the lake if they happen to depart the road. We'll keep everybody updated on that as it makes progress.

I also wanted to mention, I did mention it at a last Town Board meeting, hoping that we would get some more guidance from New York State relating to the new law that is enacted by New York State for the veteran's exemption. The way it is now, disabled veterans can qualify for some degree of an exemption on their property taxes. New York State legislature recently passed a law that grants local municipalities the option to opt into full property tax exemption for qualifying disabled veterans. The problem is they didn't define what a qualifying disabled veteran is. So, until we get those qualifying measures and fully understand how the law is to be implemented on our part, we will hold off on enacting this law. The Town Board does support moving forward with a full property tax exemption for qualifying disabled veterans. We just want to make sure that we have proper guidance from New York State on how we're going to execute this, what forms and paperwork will be required in our tax assessor's office, our real property assessor. Once we have all that information, the Town Board certainly supports moving forward with this exemption. So, stay tuned. I hope to have more information. Our property assessor is going up to a

conference between now and the next meeting, and we anticipate that she and our team will have more information when they return.

On to PDR. You're going to hear a resolution tonight applying for $2 million to the Orange County Open Space Fund in support of the purchase of the Warwick Conference Center's property that surrounds the buildings of the Warwick Conference Center. This is a much-discussed topic. Open Space Institute did purchase the 300 acres around the Conference Center, and the goal is to transfer that property to the Town of Warwick. We have applied for a $3.5 million grant through the New York State Open Space Fund. The results of that grant were supposed to come out in the summer. They have not come out yet. In the meantime, we're going to continue applying for other grant opportunities just in case that one grant falls through and it doesn't come to us. All we're doing is taking advantage of being proactive and partnering with OSI to make sure that there is funding in place to then transfer it from OSI to the Town of Warwick and initiate our plans to create a new public park within the town.

Additionally, we are in negotiations with a 70-acre piece of property located off of Cascade Road that is right up against the Appalachian Trail Corridor. We're working with Hudson Highlands Land Trust to preserve that land as well. We have a very, very willing landowner who is very eager and working extremely well with us to move forward on this, and we've also got Hudson Highlands Land Trust that is a financial partner in this endeavor. So, we're going to make great progress on that and we'll certainly keep the public informed. In addition, we've also been in talks with a 70-acre farm in Amity that we're going to move forward and do an appraisal on and identify whether or not that farm will make sense as part of our PDR program. So, a lot of new PDR in the works. I know that, you know, we talked about having a big challenge with bringing in willing landowners. The value of some of the PDRs are not as high as they once were, but fortunately we have a lot of committed landowners that are still very much interested in joining the PDR program, and we are very happy to work with them. So, the PDR program is strong and well, and we will continue it as best we can. That concludes my report, and now we will open it up the floor to privilege of the floor on agenda items. I know you're patiently waiting, but this is not yet the time for it. You will have an opportunity in about 10 minutes to talk about what you want to talk about.

#R2026-358 APPROVE PAYMENT FOR FUEL CLOUD

Motion Councilman Kowal, seconded Councilman DeAngelo to approve payment to Francis Smith & Son, Inc. for Fuel Cloud in the amount up to $15,000.00 to replace Fuel System.
Motion Carried (4 Ayes, 0 Nays, 1 Absent-Councilman Mattingly Absent) Supervisor Dwyer declared this resolution duly adopted.

Discussion: Supervisor Dwyer stated that this is to replace our fuel system that was destroyed because of the power outages that we get here, so this is very much necessary. Actually, the new system that we're going to have is going to be really useful for us to manage and better understand the fuel consumption for each of our departments where right now the best the system does is print out a 60-page document of everybody's fuel use, and it's really incredible how that is how we operate, but that's how we do it.

PRIVILEGE OF THE FLOOR (GENERAL):
PETER RENZONI – Resident, Town of Warwick - I was the original founder of Hathorn Day. We conducted two separate events in this house. Okay, and now we'll move right up here. There we go. Okay. First of all, I am the regimental advocate for the 5th New York of the Continental Line. We were the premier regiment of New York State conducting every battle fought in New York State along with other regiments from the Battle of Brooklyn, New York City, Kingsbridge, White Plains, Fort Montgomery. Let's not forget about Fort Montgomery, and so on, up the line, and we worked with General Hathorn and his militia. He supplied troops to us, so now I'll read the address that I have for you.

The 5th New York has formed a partnership between the Friends of Hathorn, the Warwick Historical Society, and hopefully also the Town of Warwick. We need your help, too. We offer a commemorative ceremony to pay tribute to General Hathorn at the Warwick ceremony to begin the day.

A living history exhibit at Lewis Park to show what the lives of our soldiers and citizens were like and what they did during the Revolution. This includes our founding fathers, too, like John Wisner and his family and the Baird family. Okay, so to continue, Warwick is the key transit hub of New York State. Our troops passed through here on their way to every engagement during the war. Washington and his officers stayed in town at the Baird Tavern, and also, they were guests of the Hathorn's during his trips between Newburgh and Morristown and his trips south. So, it's of great importance to me that Warwick ascends to its prominence. We have a right, we are the most prominent town in the effort of the Revolution, and yet no event of any magnitude has occurred in here other than the ones I started. So please consider that, okay, this is a key year for the Revolution, not only the 250, but also 1777 was a much more important year to the war effort, because then we had Saratoga. The Battle of Saratoga made every other event after that possible, and the Warwick men were there, and of course the Fifth of New York was there. They were there. I was at that battlefield. I served, okay. I know what that whole engagement was like. I know it off my heart. So, I really want to beseech the good people of Warwick and the Town Councilmen to help us.

We need, unfortunately I have to ask, we need funds. We offer a great deal for the very little we ask, okay. First of all, we're an educational organization. We visit schools, we go to towns where we have reenactments, and we engage the families and the children to come and see what the lives of our soldiers were like. We have complete displays of all the 18th century artifacts. We have 18th century craftsmen and craftswomen that show what life was like during that period of time. So also, as a run-up to Hathorn Day and Founders Day, which we kind of plan to be the second weekend of May, we want to engage the people of Warwick to come and see one of our educational reenactments at your high school. I'm going to talk

to the principal this week and see if we can work on something that you can visit to see, first of all, everything that we offer, and also that we are safe. We serve many communities, especially this year. We were just in Allendale the previous weekend. We were in Tarrytown yesterday, and what I want to mention is that we are a safe organization. We do nothing that would harm any of the people. We were firing our muskets right in the center of Town in Tarrytown, but we were properly supervised, and I want to assure the people of Warwick that the kind of exhibition we have and what the people want to see are muskets firing. That's part of the 18th century thing, but we know how to do it safely. So, I do want to keep that in mind, because we also have to involve the Village of Warwick as well as the Town of Warwick in doing these events. I guess if anyone has any questions now?

COUNCILMAN SHUBACK - If an individual wanted to make a donation, where would they send it to? If someone would like to make a donation to help fund this, where would they send it to? There are a lot of people watching, maybe watching on TV.

PETER RENZONI - If anyone wants to make a donation, they can make it out to the 5th New York Regiment. And basically, what we're asking for in general is $1,200 to cover the entire scope of the event. Any educational efforts involving the high school or any other school in the town, I give you for free as part of the run-up to that event. So, I guess I want to petition between the Town of Warwick and the Village of Warwick for $1,200 to fund this event. I am also trying to get relief from the state as well. I'll be meeting with Senator Skoufis, his staff this Friday coming. So perhaps we could put a motion forward to the town to include this into your budget somewhere for 1777.

SUPERVISOR DWYER - So, you're looking at doing this next year? You're looking at doing this next year? Next year this is going to happen in 2027?

PETER RENZONI - Yes, 2027.

SUPERVISOR DWYER - What I would ask of you, I'm sure that the board would support this, if you can just put your request in writing that outlines exactly what you're going to be doing, when and where the money will go, how it will be supported of the event. I think you'll find great support from this board in your endeavor.

PETER RENZONI - Okay, well that was part of the address I had, but my computer is not what it used to be. So, I'll revise this so that it covers exactly what you want. Okay, thank you.

SUPERVISOR DWYER - And again, so back to Councilman Shuback, if someone wants to donate to the cause, where would they send a check? If you want to just, you have an audience, I'm sure, and if you can just tell the audience who to make the check out to and where to send it.

PETER RENZONI - Well, they make the check out to the 5th New York Regiment, which has its website 5thny.org. I'll see if I can bring that up here.

SUPERVISOR DWYER - Can you state your name for the record, please?

PETER RENZONI - I'm sorry. My name is Peter Renzoni. I'm a resident of Warwick since 2000, and I live at 8 Hansen Place in Warwick, in the Cascade Lake area. So, I will provide for the council any contact information that they require. Also, for the people.

SUPERVISOR DWYER - Okay. Thank you very much for coming tonight. Great presentation.

MICHAEL HELME – Resident, Town of Warwick - Could you please update us on, so the PDR, what happened to the legislation so some of the PDR funds would be going to other things? With land purchases we're having, I mean, do we have plenty to spend on so there's no really need to put it to other things? And if I recall, one of the things the funds were supposed to be spent on was some sort of water study, I think MS4, if I recall, and then a grant funding was applied for that. Did the grant funding come through?

SUPERVISOR DWYER - We have not received the grant announcement on the MS4 grant that we submitted. Yeah, it's MS4. We had proposed revising the PDR law to include water quality improvement projects as well as amending the percent of the fund that can be used for stewardship and management of parks. Currently, it's at 10%. We are proposing the use of up to 30% of the fund. We had it passed by the New York State Senate twice, two years in a row. The New York State Assembly has refused to act on it in the legislature. The feedback that we got is that New York State doesn't like local municipalities to use their own money on water quality improvement projects. They'd rather pork or grant funded projects that come from New York State to support water quality improvement projects. It defies logic, but I just want to make sure that what I said is very clear. New York State does not want to give us our own ability to fund water quality improvement projects, so they're refusing to carry that initiative forward. The Town Board and I discussed the amendment of our PDR law removing the component of water quality improvement projects from the change and just keeping in there the stewardship fund from being 10% going up to 30%. We, although you see that we've had in the last two and a half years and five to ten years, very active with PDR, working very hard, preserving a lot of land. We've been doing a great job, but it is getting harder to preserve land in the Town of Warwick. The values that we have found for actually purchasing development rights has gone down significantly. The reason for that is because people don't mind buying a piece of land that has a PDR restriction, an easement restriction. They'll spend two million dollars on a piece of land, and they don't care if they develop it or not. So, having the easement, which usually historically would reduce the value of the property dramatically, but what that does is it makes it more valuable for a PDR. It makes the amount of money that they would get, because the PDR value and the money that a landowner would get for the easement is determined based on what the land value is before the easement, and then what the value is after the easement is in place, and the town would pay the difference. So that basically the landowner would lose nothing on the deal. We're seeing those values shrink. The cost of the actual easement is going down, and the way the law is written is we cannot offer more than the actual appraised value of that easement. So, we do feel very confident that by increasing the amount of the fund that goes towards stewardship and management, that will be beneficial to supporting our parks, supporting our open space, of which we have many acres, and we do think that by changing the law in this direction, the Assembly will most likely act on it. We found that the water quality

component was something that they just did not like because they like to give out grants. It'll be really interesting if we don't get the MS4 grant, and they also don't move forward on that law. So, we'll see.

MICHAEL HELME - Okay. I think a lot of residents are really pleased with the PDR program and proud of it, and I appreciate you sharing these extra details so people understand what's going on.

SUPERVISOR DWYER - Of course. Yeah. No problem. Thank you, Michael. Anyone else? I didn't think so. All right. Our next town board meeting will be Thursday, October 8, 2026 at 7:00 p.m., and as always, it may be preceded by a public workshop as early as 5:30 p.m. the same day.

MOTION TO ADJOURN: Motion Supervisor Dwyer, seconded Councilman Shuback that the regular meeting be adjourned. Motion Carried (4 Ayes, 0 Nays & 1 Absent – Councilman Mattingly Absent) 7:40 p.m.
